PROFILE SUMMARY

Results-driven Senior Software Engineer with 8+ years of experience designing, developing, and deploying scalable web applications. Expertise in JavaScript (ES6+), TypeScript, React, Next.js, Node.js, and DevOps. Adept at leading teams and optimizing system performance. Passionate about delivering high-quality, maintainable code and improving engineering workflows to maximize efficiency.

CORE SKILLS

Programming Languages and Web Technologies: Typescript, JavaScript (ES6+)

Frontend Development: React.js, Next.js, Vue.js, Vuetify, Redux, Vuex, Pinia

Backend Development: Node.js, Express.js, Nest.js, REST API, GraphQL (Hasura & Apollo)

Database Management: PostgreSQL, MongoDB, TursoDB, Prisma, TypeORM, Sequelize, Mongoose, DrizzleORM

Testing & Automation: Jest, Playwright, Selenium WebDriver, Selenium IDE

DevOps & CI/CD: Docker, Kubernetes, Helm, Ansible, AWS, CloudFormation, GitHub Actions, GitLab CI/CD, CircleCI

Software Architecture: Microservices, Serverless, Scalable APIs, Agile & Scrum Methodologies

Other Skills: Web3, ThirdWeb, Performance Optimization, Code Quality & Debugging

WORK EXPERIENCE

Senior Software Engineer

ShiftHealth | Remote

July 2020 to Current

- Led the development and enhancement of the team and user management system, improving UX and streamlining resource allocation.
- Automated repetitive tasks using Selenium IDE and WebDriver, reducing manual workload.
- Optimized state management, increasing application stability and reducing latency.
- Designed and implemented microservices architecture, enhancing scalability and maintainability.
- Spearheaded CI/CD automation, reducing deployment time and minimizing errors.
- Migrated critical system components to AWS Serverless Functions, improving cost-efficiency and scalability.

Software Engineer

Unbird | Remote

July 2019 to June 2022

- Developed a drag-and-drop interface, improving user engagement and reducing task completion time.
- Built a real-time notification system, increasing user retention and engagement.
- Implemented team permission controls, ensuring secure data access and streamlining workflows.

Freelance JavaScript Developer

Kwhen | Remote

September 2017 to June 2019

- Implemented features that significantly enhanced the overall user experience and engagement within an event curation platform.
- Implemented advanced search algorithms and filters, resulting in faster and more accurate event search results.
- Integrated partner APIs into the platform to fetch and consolidate event data, providing users with a broader selection of events to choose from.

Software Developer

Andela | Remote

August 2016 to February 2019

- Delivered high-quality, well-tested code across multiple projects, ensuring software reliability.
- Designed data management systems for employee information, increasing accuracy and efficiency.
- Collaborated with cross-functional teams to solve software bugs, improving performance and reducing downtime by 30%.

EDUCATION

Nnamdi Azikiwe University, Awka

B.Sc. Computer Science (Second Class Honors, Upper division)

CERTIFICATIONS AND TRAINING

Cloud DevOps Engineering | **Udacity**

July 2022
